

THE MILL LOG TEAM

THE POWER

TIMES

WORDS FROM THE MARSHALL PRESIDENT

I LOVE THE FALL SEASON! I AM NOT SURE WHAT I LIKE MOST, WHETHER IT IS THE WEEKENDS CRAMMED WITH FOOTBALL GAMES, THE WARM DAYS FOLLOWED BY CRISP EVENINGS OR THE CHANGING OF THE LEAVES. FALL IS ONE OF MY MOST FAVORITE OF ALL SEASONS! LIKE THE CHANGING OF THE SEASONS, THERE HAVE BEEN LOTS OCCURRING HERE AT MILL LOG GROUP OF COMPANIES. I AM HAPPY TO ANNOUNCE THAT, IN OUR BRITISH COLUMBIA MARKET, WE ARE NOW AN AUTHORIZED DISTRIBUTOR FOR THORDON BEARINGS, WWW.THORDONBEARINGS.COM. THORDON BEARINGS IS A 100-YEAR OLD NON-POLLUTING BEARING SOLUTION THAT IS GREASE FREE. THERE IS A GROWING REQUIREMENT FOR WORKBOAT COMPANIES TO GO "GREEN" AND ELIMINATE PETROLEUM-BASED PRODUCTS BEING USED ONBOARD. THORDON BEARINGS FITS THE BILL AND IS THE MOST ENVIRONMENTALLY FRIENDLY AND WEAR RESISTANT BEARING IN THE WORKBOAT MARKET TODAY. WHEN THORDON'S RIVERTOUGH BEARING IS SIZED PROPERLY, THESE POLYMER WATER LUBRICATED RUDDER AND SHAFT BEARINGS HAVE BEEN TESTED AND SHOWN TO OUTLAST RUBBER BEARINGS 2:1. IN ADDITION, THORDON BEARING'S RIVERTOUGH BEARINGS PERFORM EXCEPTIONALLY WELL IN EXTREME OPERATING CONDITIONS SUCH AS THE SEDIMENT-HEAVY FRASER RIVER. PLEASE WELCOME SANDY BOURQUIN, MILL LOG MARINE TERRITORY MANAGER, AND AXEL SWANSON, THORDON BEARINGS TECHNICAL SALES REPRESENTATIVE, WHEN THEY STOP BY FOR A VISIT. LIKE ME, I AM SURE THAT YOU WILL BE IMPRESSED WITH THESE AMAZING BEARINGS.

FIX-IT-FELLERS SERVICE

DIGGING, DIGGING, DIGGING! DIGGING IN FOR THE WINTER, DIGGING FOR OIL, DIGGING FOR COAL, DIGGING FOR MINERALS OR DIGGING FOR WATER. SOCIETIES WORLD-WIDE HAVE EQUIPMENT THAT IS DIGGING EVERYDAY FOR SOMETHING THAT WE NEED. WHETHER IT BE FOR SOMETHING LIKE WATER THAT WILL SUSTAIN US, FUEL TO HEAT OUR HOMES, FOSSIL FUELS TO MAKE ELECTRICITY FOR THE ELECTRIC CARS THAT ARE THE NEW CRAZE, OR TO MOVE THE DIRT, SNOW OR ROCK THAT IS BLOCKING OUR DRIVEWAY, ALL OF THESE ACTIVITIES TAKE SOME TYPE OF DIESEL POWERED MACHINE. THESE MACHINES USE COMPONENTS THAT ARE MADE RIGHT HERE IN NORTH AMERICA AND WE ARE PROUD TO SAY THAT WE KEEP THESE MACHINES WORKING. IT MAY NOT ALWAYS BE A GLAMOROUS JOB...ACTUALLY IT RARELY IS! HOWEVER, WE TAKE GREAT PRIDE IN BEING DISPATCHED TO A JOB SITE AND BEING THE "GUYS" THAT IN A SMALL WAY KEEP OUR WORLD GOING. OUR MANTRA IS "OUR TOOLS...YOUR EQUIPMENT, ANY TIME-ANY PLACE" AND WE LIVE BY THIS MANTRA EVERYDAY THAT WE PICK UP OUR TOOL BAG. THANK YOU FOR TRUSTING US TO KEEP YOUR EQUIPMENT DIGGING.

BANKERS ACCOUNTING

ON MORE THAN ONE OCCASION, WE HAVE "TOOTED OUR OWN HORN" ABOUT THE LONGEVITY OF OUR EMPLOYEES. IN THESE PARTS, IF YOU HAVE ONLY BEEN AROUND FOR 5 YEARS, YOU JUST STARTED! COMPARED TO THE REST OF THE NATION (U.S.) WHERE THE AVERAGE LENGTH OF EMPLOYMENT IS 4.1 YEARS, MILL LOG'S AVERAGE LENGTH OF EMPLOYMENT OF 10.8 YEARS LOOKS UNBELIEVABLE!

SINCE I AM THROWING OUT STATISTICS IN ONLY A WAY THAT A BANKER CAN, LET ME THROW A FEW MORE OUT FOR YA. 55% OF ALL MILL LOG'S TEAM MEMBERS HAVE BEEN HANGING OUT HERE FOR MORE THAN 5 YEARS. OF THAT 55%, 18 TEAM MEMBERS HAVE MORE THAN 10 YEARS WITH MILL LOG AND THAT'S NOT ALL! 13 TEAM MEMBERS ARE OVER 20 YEARS OF HARD SWEAT AND TEARS WITH MILL LOG, AND AN AMAZING 5 TEAM MEMBERS (INCLUDING OUR SHERIFF) HAVE BEEN AT THIS GIG FOR MORE THAN 30 YEARS. LONGEVITY, EXPERIENCE AND CUSTOMER SERVICE IS WHAT WE HANG OUR HAT ON AND WHAT DRIVES US TO UPHOLD OUR CUSTOMER PROMISE THAT STATES, "COMMITTED TO CONTINUOUS IMPROVEMENT AND CUSTOMER SATISFACTION." WHEN YOU THINK POWER TRANSMISSION EQUIPMENT... THINK MILL LOG!

OUTLAWS SALES & PARTS

TECHNOLOGY CONTINUES TO EVOLVE! THE COLT-ROOT MODEL 1855 REPEATING RIFLE WAS ONE OF THE FIRST, IF NOT THE FIRST REVOLVING PERCUSSION REPEATER. ALTHOUGH THE WINCHESTER 1873 IS THE REPEATER THAT GETS ALL OF THE ATTENTION, THERE WERE EMERGING TECHNOLOGIES 20+ YEARS EARLIER THAT LED TO THIS WORLD-CHANGING DEVICE. LIKE MANY OF OUR TECHNOLOGIES TODAY THAT EMERGED FROM A PERIOD OF CONFLICT, THESE REPEATERS EMERGED (AND WERE QUICKLY REPLACED) DURING THE CIVIL WAR. ALTHOUGH OUR WORLD HAS CHANGED SINCE THE COLT-ROOT REPEATER WAS FIRST INTRODUCED IN 1838, EMERGING TECHNOLOGIES CONTINUE TO BE INTRODUCED TODAY THAT WILL CHANGE THE FACE OF OUR LANDSCAPE 20 YEARS FROM NOW. MILL LOG GROUP OF COMPANIES, ALONG WITH OUR PARTNERING MANUFACTURERS LIKE TWIN DISC AND THORDON BEARINGS, ARE INTRODUCING TECHNOLOGICALLY ADVANCED PRODUCTS TODAY THAT ARE CHANGING OUR INDUSTRIES AND EVOLVING OUR WORLD. TWIN DISC HAS DEVELOPED THE NEW LIGHTWEIGHT 2500 HP FRACKING TRANSMISSION, A LINE OF HIGH PERFORMANCE MARINE QUICKSHIFT TRANSMISSIONS THAT, WHEN COMBINED WITH THE DYNAMIC TWIN DISC EC300 ELECTRONIC ENGINE CONTROLS, REWRITES THE BOOK ON BOAT CONTROL AND MANEUVERABILITY. THORDON BEARINGS MANUFACTURERS A COMPLETE LINE OF NON-METALLIC BEARINGS THAT CAN DRAMATICALLY DECREASE OPERATING COSTS. THESE POLYMER BEARINGS ARE WATER LUBRICATED AND ELIMINATES THE NEED FOR PETROLEUM-BASED PRODUCTS FOR LUBRICATION. IN ADDITION, THORDON'S RIVERTOUGH BEARINGS HAVE PERFORMED EXCEPTIONALLY WELL IN EXTREME OPERATING AND SEDIMENT HEAVY CONDITIONS SUCH AS THE MISSISSIPPI AND FRASER RIVERS. WE ARE NOT SURE WHAT THE FUTURE HOLDS OR EVEN WHAT OUR INDUSTRIES WILL LOOK LIKE 20 YEARS FROM NOW. HOWEVER, WHAT WE DO KNOW IS THAT THE TECHNOLOGICALLY ADVANCED PRODUCTS BEING INTRODUCED TODAY WILL CONTINUE TO SHAPE OUR WORLD, THE WAY OUR EQUIPMENT OPERATES, AND HOW WE FUNCTION MANY YEARS FROM TODAY. IF YOU THINK IT MIGHT BE TIME TO UPGRADE "YOUR 1855," GIVE US A SHOUT...WE KNOW WE CAN HELP!
